### THE SITUATION.

ENGLAND and France are at daggers points. War may be declared between the two nations at any moment. The trouble arises over the French occupation of Fashoda, in the Sudan. Great Britain regards this as an encroachment upon her territory. According to the views of the British Empire is trying acquire domain in the Sudan by another sovereignty, threatening force as a means to establish her title to the territory. Both countries are at loggerheads and neither seems disposed to concede a point to the other. Should France and England engage in war the interests of the United States will be jeopardized. France is hot for trouble with some foreign power. Her army, which is under a cloud, is eager for an opportunity to vindicate itself on the field. Unless something happens to give it employment civil war may take place and the government be threatened with destruction. The opportunity to fight England has arrived and unless France conservatism, an unknown quantity, asserts itself, war will take place. England's extremity will be Russia's opportunity. She will begin to stir up a mass in China, England, Japan and the United States, the powers most interested in the maintenance of the open door and free, unrestricted trade in China will be compelled to resort to arms to head off Muscovite aggression. France will egg Russia on. French capitalists own over \$400,000,000 of Cuban bonds. The decided stand our government has taken against assuming Spain's indebtedness in Cuba jeopardizes French financial interests as Spain is bankrupt and should be compelled to carry the burden Cuban bonds would not be worth a bauble. Four hundred millions of dollars, according to the French idea, is worth fighting for and unless our peace commissioners get a handle on themselves and close up negotiations with Spain in short order we may be in the position of the man who wrestled with the bear. He was afraid to hold on and equally afraid to let go. European diplomacy is a treacherous thing. Powerful influences are at work against the United States. The long looked for coalition of the Latin races is about to be consummated. When it takes place it will be a fight of Latin against Saxon and the struggle will be one that will shake the world to its center. Maps will be changed as they never were before and all previous wars of history will be pygmy conflicts as compared with this. Wealth and blood will be wasted to satiate the greed and lust for power. It may be that the two nations are bluffing and that matters will be settled without strife. But as the game now stands John Bull and Jean Capreau both have their hands on their guns and their eyes on the jack pot. Carl Nicholas and Uncle Sam are holding their seats ready to take a hand in the scrap.

The stamp tax is a bitter pill for the druggists.

Writings are disposed to linger in the lap of Autumn.

Independent independence is the only kind that can stay.

When Cuba and Manila are annexed where are our imported cigars to come from?

The prospects of a foreign war have made wheat prices go upward with a skyrocket move.

The men behind the canons were responsible for the divorce laws of the Episcopal church.

According to the Owenboro Messenger's point of view P. Watt Hardin is guilty of "persecution by authority."

Some girls prove that they are angels by displaying a lack of knowledge of evil when they select their husbands.

As a result of her war with the United States Spain has acquired the greatest submarine navy of modern times.

Truth is the most valuable thing we have, but that should excuse our not being economical with it.

It has been said that a woman can make a fool of a man. All wrong—the merely devoted fool in him.

The failure of the pig tobacco trust was probably due to the fact that the organizers bit off more than they could chew.

The fact that the wire workers have not been taken as evidence that this is an off year in politics.

It takes some people years to learn that they do not know anything, when most people can find it out in ten minutes conversation.

Speaking of the gubernatorial nomination of any one heard John Young Brown deny the self impeachment that "Barkie is willing."

A Hannibal, Missouri, woman has just married her seventh husband, and is a woman that does not believe that marriage is a failure.

Kentuckians who are looking to Cuba, Porto Rico or the Klondike for investments for their capital should remember that there are more promising fields at home and not half the risk.

In its new dress the Morgantown Sun is a "thing of beauty and a joy forever." Such men as Charles Hartwell credit upon the newspaper profession in Kentucky. May his live long and prosper.

institute is that city. Farmers cooperate with him. "Get out of the rut. Get together and learn new and better methods of conducting your affairs. Put your mind to the work and you will get the chariot of progress. Better spend a little time arguing agricultural questions rather than politics. Try it and see."

### TO MAKE GOOD TIMES.

You may talk about the tariff and protection and free trade, and party games for opposing union, life, and "improving trade conditions," and the best that wheat has made, but the way to stir up business is to pay your little bills. If you owe the grocer twenty and he owes the butcher five, and five more to the coal man, and to the ice man five, your payment of the twenty helps three business men and the payments they can make in turn make other people thrive. Idle money in your pocket doesn't do any good, unless your bills are paid up in full it isn't yours. It just pays up all your bills and then what others would, that's the receipt for hard times that inevitably comes. If you pay what you owe others, others will pay you, it's the crowding dollar that the pulse of business thrills; so set your money working and then watch what it will do, for the way to stir up business is to pay your little bills.—Ex.

### THE SKEIN OF IT.

It is inevitable that the United States accept the policy of expansion. It would be a cowardly evasion of responsibility for the nation to do otherwise. People who oppose expansion on the grounds that it would involve new relations with continental powers and would bring up new questions of governmental policy are the victims of foolish fears. The genius of our statesmanship and the fitness of our economic principles will make us the conquerors of all obstacles. The arguments such persons advance in opposition to expansion are at par with the following:

"Don't you know," said a politician, "that some of the islands in the Pacific ocean are the work of coral insects?" "What has that got to do with us taking possession of them?" asked the expansionist. "My friend, you are wholly deficient in the foreground that makes a statement. Supposing some ship with a cargo of insect powder was to founder in the neighborhood?" "The evils that attend expansion are just about as appalling as the results would be were a ship loaded with insect powder to sink near a coral island."

### NEEDED LEGISLATION.

Every road in the United States is bothered by the lawless nuisance, and it is a serious problem. The railroad men say that it is growing, and that the number of tourists who use side street crossings, turnpikes and turn roads increase every year, and they now advocate a national law on the subject, which appears to be no promise of relief in the very near future from a law of that kind.—Lewiston Herald.

The Messenger has called attention to a great nuisance and a possible remedy. For the past quarter of a century the people of this country have been troubled by the modern tramp virtually over his existence to the railroad. The fact that he can obtain transportation free of charge, to all parts of the country, has given him unlimited forage grounds. To-day he is in Pittsburg, to-morrow in Louisville. The fact that the tramp is a transient and not a resident pauper makes him harder to deal with than the poor we have with us. The few corrective methods applied to him are failures because they are only temporary in their nature. They treat the tramp of his opportunity to get free rides over the railroads and rob him of his life of his chief charm. The tramp army would be reduced very materially if in matters were compelled to walk. One of the great cruelties of the free ride evil is the fact that it allows young boys from home. In the past few weeks the Louisville police have apprehended a half-score of youthful tramps who have been beating their way from town to town on freight trains. The novelty of seeing new places, the excitement of the public in response to their appeals for food, the ease with which they could steal rides, encouraged the boys to remain away from home and land. It is not been for the police they might have become confirmed pirates. A national law, making it a criminal act, punishable by imprisonment in the penitentiary, for stealing rides on railway trains, would undoubtedly be a splendid means of solving the tramp problem.

### GOETHE ON EXPANSION.

ALMOST a century ago Goethe, the great German savant, with prophetic foresight, saw that manifest destiny would force the United States to adopt a policy of expansion and in the words of the famous poet, "The future of the nation lies in the following words, such a consummation." "A great spirit of enterprise will manifest itself in the future that will result in the cutting of a canal of such character as will allow ships with any kind of cargo, and of every even the greatest, size to pass from the Gulf of Mexico to the Pacific Ocean. This will result for the civilized world, also for the not uncivilized part of mankind, the greatest possible advantage. I should, however, be astonished if the United States were to let slip the opportunity of

getting such a work into their own hands. One may foresee that that youthful country with its pronounced tendency toward the west, will have steady and populous, with the most rapid or forty years, even the wide stretches of land beyond the Rocky Mountains. One may also foresee that along all this coast of the Pacific, where nature has already created the most agreeable and most convenient harbors, there will gradually rise very important commercial towns, which will become the intermediaries of a great intercourse between China and the West Indies on the one side and the United States on the other. I repeat, then, that it is absolutely imperative for the United States to effect a cutting from the Gulf of Mexico to the Pacific ocean. And I am sure they will effect that aim."

Goethe was inspired with the true spirit of the prophet and the true vision of the product and the true vision of the future. He was a partial fulfillment of his predictions. As he foretold, the irrepressible tendency toward expansion—characteristic of a vigorous people—has resulted in the building of an empire upon the Pacific slope. Commercial towns have sprung up like magic and now the ripeness of Goethe's vision is apparent in the birth of the greater America that is reaching out for imperial power in the Pacific. The acquisition of the Philippines, which is only a question of some time, will make the United States the dominant commercial factor in the east. The merit and vitality of her economic system will eventually make her the controlling policy force, of which will promote the well of humanity, civilized and uncivilized, within the pale of her influence. A means toward that end will be the construction of the Nicaragua canal. Destiny has ordained it and the new-born interests of the republic demand it.

## Liver Trouble

When the yellow flag of quarantine is hoisted over a dwelling it means disease and danger. So when the yellow flag flies in the face—when the check is issued and the clear white of the eye is dyed saffron—there is danger. It is liver trouble. The liver is one of the most important organs of the body. On the proper discharge of its functions depend human health and happiness. When the liver fails of its duty, poisons at once begin to generate, and other organs of the body become involved. If you are suffering from liver trouble, begin at once the use of AYER'S PILLS and you will find prompt relief and permanent cure.

"I was so troubled by liver trouble that I had nearly given up. But in this condition I began the use of Ayer's Pills and feeling almost immediate relief, continued their use until I was cured of my complaint."

H. W. BENTLEY, Towner, N. D.

## INQUIRIES.

Who knows the weight of sorrow that I bear,  
Or tries to lighten mine my load of care?  
Who hears the wail of anguish from my heart,  
Or grieves with me when burning tear drops start?  
Who seeks to rend the veil of dark despair,  
Or asks the cup of grief with me to share?  
Who takes my hand and guides my weary feet,  
Or calls the thorns and scutes flowers sweet?  
It is not human hands that comfort bring;  
Nor human voices that Hope's anthem sing.  
'Tis He whose halo shines upon my way  
And turns grief's blackest night to brightest day.  
He knows my heart, He hears its faintest moan.  
Oh blessed thought! with Him I'm not alone.

operation was performed upon Mrs. Marnie Folly by Dr. Dugan, of Louisville, assisted by Drs. Miller and Frymire. It is reported as quite a successful operation.

The school at this place under the direction of John C. Tucker is progressing nicely. Large number in attendance; average for the term 48-50, which is 133 per cent of the number. Their interest in their work is good.

Mr. Jas. Harned, a drummer for J. M. Robinson, Norton & Co., Louisville, was here last week spreading his cheerfulness among our people. I think some of our young ladies will verify the truth of the latter clause. Come again, Mr. Harned.

We have an interesting Sabbath school here, which is well attended. Should it not be so? It is a great success to the worthy superintendent. I think I should not miss it much. Presiding every third Sunday at 11 A. M. and 7 P. M. Robert J. M. Galloway was not able to preach last Sunday, but he came up to show the people what a good-looking man they have to preach for them this year. He read a passage and commented on it, but we could readily discern that he had the vigor of mind and body which he was to express in his preaching. Brother Jim was a good man, and one that puts whole soul into his vocation.

Mrs. Wimp has returned from her eastern trip.

The seats for the college came today to the delight of Prof. Crab.

R. M. Jolly gathered a quart of strawberries last Sunday in his patch.

Mr. Jolly announced himself a candidate for County Court Clerk three weeks hence.

Mrs. and Mr. Harry Major, of Louisville, are at the "old home," with their little ones.

Miss Maggie Carter was the guest of friends in town last Wednesday evening and night.

Mrs. Montgomery has returned from Fordville, and is looking quite well after her recent illness.

Miss Jimmie Lewis had two very sick children last week, but we are glad to note their improvement.

Miss Ryan, from Cloverport, recently, is with Mrs. Warriner. She will probably remain all winter with Mrs. Gardner.

Fletcher Blanford was the guest of Roy J. Cain last Tuesday. He was en route to his home for a spring visit.

Mrs. Benton and her ones are expected to return this week. They have been home to "mother" and other "dear ones."

Carl Dentche passed through our town in his buggy last Sunday evening, just returning from seeing his "best" wife. Imagine.

The Union Star school prides itself on having lately purchased and set up one of the best stoves to be found in any of our sections.

Dr. William Milner, Jr., is kept very busy at his practice. He gets more practice than any other physician in this section, and it doesn't make us sad. People need not fear the grasshopper pest any longer in sowing their wheat. The cold weather will prevent his depredations any farther.

Little Allen Sevens, who has been afflicted with a serious cold for some time, is now able to be in school again. We are glad to see him return.

There is a large tract of land adjoining the preserve which is admirably adapted for this purpose and it may be utilized when necessity demands it.

Advice to Consumptives

There are three great remedies that every person with weak lungs, or with consumption in itself should understand.

These remedies will cure about every case in its first stages; and many of those more advanced cases that are hopeless. Even these are wonderfully relieved and life itself greatly prolonged.

What are these remedies?

Fresh air, proper food and

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites.

Be afraid of draughts, but not of fresh air. Eat nutritious food and drink plenty of milk. Do not forget the oldest, the most thoroughly tested and the highest endorsed of all remedies for weak throats, weak lungs and consumption in all its stages.

SCOTT'S EMULSION, N. Y.

## DEATH OF HENRY O'BRIEN.

The End Came Suddenly and Was a Shock to Friends.

His Demise Was Caused By Acute Bright's Disease.

On Friday the whole community was shocked by learning of the sudden death of Henry M. O'Brien. He was a friend of the Henderson Road and was exceedingly popular with all who knew him.

He was taken sick Monday, but as his illness was not considered alarming, very few were aware of the fact that he was off duty. The illness was developed symptoms of an alarming nature and it was found that he was suffering from an attack of bright's disease. His death took place at 4 o'clock Friday afternoon.

Henry M. O'Brien was born near Hodgenville, La Rue county, August 11, 1875. He moved with his family to this city in 1891 and attended the common schools here and at Hite Run.

He was working for the L. H. & S. L. railroad company for several years and at the time of his death was a fireman on engine 7.

He had many fine qualities and his unflinching good nature and loyalty to his friends made him very popular with everybody. He possessed a fine physique and disposition and had lived long would undoubtedly have risen to a responsible position at his trade.

He was a member of the A. O. U. W. and carried an insurance policy for \$1,000 with that order.

The funeral took place Sunday, the interment being in St. Romanus cemetery at Harbington. The A. O. U. W. attended in a body and over 50 persons went from here to Harbington to assist at the last rites and services performed over the remains of the deceased.

The floral offerings were numerous and beautiful. Wreaths, shields, crosses and emblems, composed of cut flowers and immortelles were sent by friends from this city and Louisville.

The deceased leaves a father, mother and five brothers, all of whom have the deepest sympathy of the whole community.

The following resolutions were adopted by the A. O. U. W. of which lodge he was a member:

RESOLUTIONS ON THE DEATH OF BRO. HENRY M. O'BRIEN.

Whereas—Almighty God in His all-wise appointed time hath taken our beloved brother from our midst, be it therefore resolved—That in our brother's death the lodge has lost a true and faithful worker, one who led the true spirit of a fellow worker and one who was ever ready to lend a helping hand in time of need. He no longer answers the roll call here, his spirit has gone to join the celestial lodge above. His voice will no longer be heard among us but we cherish his memory as a light in our hearts and in our beloved order, therefore be it

Resolved—That a copy of these resolutions be spread on the minutes of the lodge and a copy to be sent to the family of our deceased brother.

JOHN BRYAN, J. B. BRYAN, F. A. BRYAN.

Committee A. O. U. W., Cloverport Lodge No. 42.

The readers of this paper will be pleased to learn that there is at least one practical disease that science has been able to cure to all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietor has much to say in its cure, powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Circuit Clerk McKelton has discovered that all the cases he handles in his court the divorce cases pay the least to the clerk. He has accordingly asked any case out of a divorce suit and he thinks this particular case should be required to be put up enough money to pay costs before a divorce is granted.

Went Brown has opened a confectionery and lunch room on Court square and for the small sum of ten cents you can get a good hot lunch most any hour in the forenoon. Food is good and the bread is used three times a week. This bread he recommends to be as good as the city bread. Go and see Mr. Brown for anything in the confectionery line and you will find him anxious to please.

Judge James McKelton, of Cloverport, made his maiden speech before a jury in the Circuit Court last week. He had a tough fight but he made a good impression upon the jury and acquitted himself well. There were several other attorneys who answered to get the jury but they were not sent into the case to see young girls to drop in and hear them. The young ladies appeared in the court room and the young man's time was wasted for he was to hear suit but he didn't get it off and the young ladies seemed to be disappointed.

Circuit Clerk McKelton has discovered that all the cases he handles in his court the divorce cases pay the least to the clerk. He has accordingly asked any case out of a divorce suit and he thinks this particular case should be required to be put up enough money to pay costs before a divorce is granted.

Went Brown has opened a confectionery and lunch room on Court square and for the small sum of ten cents you can get a good hot lunch most any hour in the forenoon. Food is good and the bread is used three times a week. This bread he recommends to be as good as the city bread. Go and see Mr. Brown for anything in the confectionery line and you will find him anxious to please.

Judge James McKelton, of Cloverport, made his maiden speech before a jury in the Circuit Court last week. He had a tough fight but he made a good impression upon the jury and acquitted himself well. There were several other attorneys who answered to get the jury but they were not sent into the case to see young girls to drop in and hear them. The young ladies appeared in the court room and the young man's time was wasted for he was to hear suit but he didn't get it off and the young ladies seemed to be disappointed.

## WORLD'S WHEAT CROP.

The Bergholm Estimate puts the 1898 yield at 2,640,000,000.

The following is a summary of the Washington agricultural department's report of agriculture in foreign countries for October:

The Hungarian ministry of agriculture and the several commercial authorities have issued their estimates of the world's wheat crop of 1898. The Bergholm estimate of 2,640,000,000 bushels of wheat, in the grand total, varying but little from the Hungarian official estimate. Wheat crop of India for 1898 is officially reported to amount to 243,927,290 bushels, or 1,197,192,867,463 bushels, while the annual average for the previous five years was 236,440,000. Official figures on area show an increase of 686,172 acres in France, of 218,000 acres in the United Kingdom, 183,000 in Ontario, Canada, and 147,000 in Manitoba in areas under wheat.

The estimate of production given in tables published with the report make the crop of 1898 the largest on record, but the world's reserve stocks had run extremely low before the harvest.

# STORY FOR SMALL BOYS.

Shows That a Hero is Not Made in a Minute.

The Boyhood of Lieutenant Richmond Pearson Hobson.

Little folks a hero is not made in a minute, says a writer in Little Folks No. 100, you may depend upon it that is the thorough doing each day of all the things one ought to do, that grows the strength for the great deed.

For weeks you have been hearing about the glorious deed of Lieut. Richmond Hobson, a young southern man in our navy; how he sailed an American ship into Santiago channel right under the guns of the Spanish force; and blew her up and such her across that way to shut the Spanish warship into the harbor inside. You know how the whole country cheered, and how the President sent his thanks. You know how even the Spanish Admiral, who once had killed Lieut. Hobson and his seven brave comrades fell, praised the young American. And now I will tell you how this bold young American in a good and loving fatherly child at home and a gentle and cheerful boy at school.

His mother—Lieut. Hobson's mother is a neighbor of mine—told me that it was "fascinating" something natural to little Richmond and not taught him, never to leave her home, but always to be on hand in case she should need him. He appointed himself his mother's body guard when he was only a child. If kept in his low office, or in the court room at evening, his father could feel sure that little Richmond never left her. These stories of his mother, who had fought in the Revolutionary war, at King's Mountain, and at Cowpens, and with Jackson at New Orleans.

This cheerful and gentle little Hobson was a strong love for his mother. To please him his mother bought for him a pair of guns, and had the village wheelwright to make him a goat cart, and a miniature of the big ox wagon that were driven into town by the negro farmers from the plantations.

Little Richmond was delighted, but what do you think was the thing he said first? It was this: "My mother! I can do all your shopping and bring everything home to you in my goat wagon!"

And he did. Any twenty years ago on the many streets of this old Alabama town of Greenville one might see the hero-to-be trudging besides his mother like a veteran driver, popping his whip and steering his wagon full of packages with about the same sense of responsibility as when he steered the Merrimack and sunk her in just the right spot. Don't you know that his patient work with his little goat team helped develop the heroic judgment?

As he grew to be a lad and was in the Naval Academy at Annapolis, his moral courage and physical courage proved to us well matched. You have read of him born at Annapolis? You remember the little Christian like Arthur, and the rough-and-ready rugged Tom? Young Richmond had the fine qualities of both. His loyalty to his long-sighted Christian ally, while at Annapolis, got him the name among the boys of "The Parson."

One day young Hobson, with the rest of the class, was at the swimming place. He was far out, alone the rope in the breakers. It would be almost sure drowning to loose hold of the rope. But he happened by some coincidence that as Hobson passed all further out, he came a clammy coming in, clinging for life to the rope. They two were alone out there in the breakers.

The two lads looked into each other's eyes. "It was a hard moment for the youngsters. Safe passage along the rope for both was nearly an impossibility. Hobson gave way to his clammy friend, keeping the market hold on the rope. But somehow at the moment of the boy's passing him, even this slight hold gave and he sank into the breakers.

The boy lay on the rope out and sent aid. Hobson was brought to shore.

Really Grand.

He: You say you like a manly man.

She: Well, for instance, one who doesn't play and stay and stay just because he knows his girl isn't strong enough to throw him out—Ee.

## How To Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. It is a household necessity in this county and no mother who sees we run out of it, would not do so without Chamberlain's Cough Remedy. Most of all I tell here that of all other cough medicines combined—J. M. Nicols, of Nettle Tree, merchant, Louisville, Ky. For sale by A. R. Finner, Cleveland; K. A. Shelman, Stephensport.

## A WORD TO FARMERS.

A Suggestion That Will Save Time and Money.

They Should Patronize The Want Column of The News.

An enormous amount of money and brains are spent on advertising. Some of the most brilliant business successes are due to advertising. Numerous important business have been built up by means of judicious advertising. Every progressive merchant, manufacturer and specialist in industry realize the value of advertising. But the average farmer is just beginning to wake up on this point. We know many cases in which a farmer has sacrificed profitable sales, or gone to large expense of time and money to hunt up what he wanted, when he could get it at a very low price, or a dollar or two would have accomplished infinitely better results.

Our want column was introduced for the sole purpose of aiding the farmer in his business. If he has stock, machinery, vehicle or household goods to sell or exchange, if he wants to buy, sell or rent a farm, or wants land, hands, or farm supplies he can just send 25 or 50 cents to the News and have a small card inserted that will reach with interest by thousands of persons.

We intend to make this a valuable factor in promoting the interests of our farmers. If we can assist them to buy or sell their stock on their own premises or bring business to their own doors it will save time of riding, loss of time and loss of money and will prevent profitable sales.

Try our want column once and see if it is not a source of benefit to you. When you send in your advertisement send in one cent for each word and you can bank upon it that you will get what you are looking for.

One Minute Cough Cure surprises people by its quick cure and children may take it in large quantities without the least danger. It has won for itself the best reputation of any preparation used in throat for cold, croup, tickling in the throat or obstinate coughs—Short & Hays.

As Editor's Daughter's Doll.

The editor of Harper's Magazine, Mr. Henry M. Alden, has a daughter who has made a collection of over 100 dolls, each doll representing a different nation and being made in that country. The collection is considered by him to be most unique and finest of its kind in existence. Miss Alden is now to show the world her dolls, and explain them, and in the next issue of The Ladies' Home Journal she will show pictures of the first twenty.

In following issues she will show others.

They Should Patronize The Want Column of The News.

An enormous amount of money and brains are spent on advertising. Some of the most brilliant business successes are due to advertising. Numerous important business have been built up by means of judicious advertising. Every progressive merchant, manufacturer and specialist in industry realize the value of advertising. But the average farmer is just beginning to wake up on this point. We know many cases in which a farmer has sacrificed profitable sales, or gone to large expense of time and money to hunt up what he wanted, when he could get it at a very low price, or a dollar or two would have accomplished infinitely better results.

Our want column was introduced for the sole purpose of aiding the farmer in his business. If he has stock, machinery, vehicle or household goods to sell or exchange, if he wants to buy, sell or rent a farm, or wants land, hands, or farm supplies he can just send 25 or 50 cents to the News and have a small card inserted that will reach with interest by thousands of persons.

We intend to make this a valuable factor in promoting the interests of our farmers. If we can assist them to buy or sell their stock on their own premises or bring business to their own doors it will save time of riding, loss of time and loss of money and will prevent profitable sales.

Try our want column once and see if it is not a source of benefit to you. When you send in your advertisement send in one cent for each word and you can bank upon it that you will get what you are looking for.

As Editor's Daughter's Doll.

The editor of Harper's Magazine, Mr. Henry M. Alden, has a daughter who has made a collection of over 100 dolls, each doll representing a different nation and being made in that country. The collection is considered by him to be most unique and finest of its kind in existence. Miss Alden is now to show the world her dolls, and explain them, and in the next issue of The Ladies' Home Journal she will show pictures of the first twenty.

In following issues she will show others.
